DISCOVER WHY SINGAPORE IS THE CENTRAL HUB IN THE ROADMAP TO ASIA.

BioCentury and BayHelix bring the 3rd East-West Biopharma Summit to Singapore, where 20 years of government-led investment in science, talent and infrastructure has set the stage for the life sciences industry to carry the ball forward. For Western innovators and investors, Singapore is also the gateway to Southeast Asia, APAC and beyond.

To help meet this challenge, BioCentury & BayHelix invite you to join the East-West BioPharma Summit.
